

TRANSFER OIL

Pure Fluid Attitude

185 - H2 REFUEL 10k

Thermoplastic antistatic hose H50 category for Hydrogen refuelling applications up to 700 bar (10000 psi).

FEATURES

Inner Tube

Special polyamide

Reinforcement

One or two braids of aramid fiber plus one braid of steel wire

Cover

Polyurethane - turquoise - pinpricked - laser branding

Applications

Very High Pressure hose suitable for hydrogen applications

Features

Combined aramid steel braid construction for compact design. Lightweight and flexible. Low bend radii for use in tight environments. Antiabrasion cover with water, micro biological, ultraviolet and ozone resistance. Pinpricked cover.

Description

High pressure hose suitable for hydrogen refueling applications featuring metallic braid and special conductive inner tube to dissipate static electric build up. Extra tough cover for abrasion water and micro biological resistance. Rugged construction to give kink, crush, twist and pull resistance. Connection hose from dispenser to fuelling nozzle for gaseous compressed hydrogen. Use with hydrogen gas, high pressure, low-temperature (-40°C).

Temperature Range

-40 °C to +65 °C (-40 °F to +149 °F). Accordingly to ISO 19880-5

Available As Factory Made Assemblies: Please Contact Our Sales Office For Further Details.
